DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 12/20/04 have been fully considered but they are not persuasive as indicated below.

Election/Restrictions

2. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 6 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kettle et al. (hereinafter Kettle), as set forth in the previous office action.

With respect to the applicant's argument on pages 8-9 of the amendment filed 12/20/04, Kettle, in the abstract, clearly discloses a sealed sachet (1), which is contrary the applicant's assertion in line 8 of page 8. Furthermore, the applicant never claims a "sealed" package in claim 1. Claim 1 further call for the "package having a breakable portion proximate to the hermetic closure". The adhesive tape (8) of Kettle is part of the "package" and it is being broken or peels away from the "package" to allow the fluid holding element to be uncovered for use. In that extend, the adhesive tape (8) is

considered as a "strip seal". The applicant never claims the structure of the package and the structure of the strip seal in relation the structure of the package.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3, 5 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kettle in view of Nicholson, as set forth in the previous office action.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
